**Item 1.01 Entry into a Material Definitive Agreement.**

On November 13, 2023, Nuburu, Inc. (the “Company”) entered into a Note and Warrant Purchase Agreement (“Purchase Agreement”) with the lenders identified therein (the “Lenders”) providing for a loan with an aggregate principal amount of \$5.5 million (the “Loan”). An affiliate of the Company’s executive chairman and two principals of Anzu Partners, a holder of approximately 26% of the outstanding common stock and 45% of the outstanding preferred stock, are included among the Lenders. The Loan includes zero-interest promissory notes issued with a 10% original issue discount, which will mature on the earlier of the Company closing a credit facility in principal amount of at least \$20 million, a Sale Event (as defined in the Purchase Agreement), a sale of securities in excess of \$10 million (subject to certain exceptions), or twelve months after issuance (the “Notes”).

The Notes contain customary events of default and are secured by the Company’s patent portfolio pursuant to a security agreement among the parties (the “Security Agreement”). Following acceptance by the NYSE of the Company’s supplemental listing application, the Company will also issue to the holders of Notes warrants exercisable for an amount of the Company’s common stock, par value \$0.0001 per share (“Common Stock”), equal to 100% of the Note principal, which will be exercisable for \$0.25 per share of Common Stock, have a 5-year term, and may be repurchased by the Company when the trading price of its Common Stock exceeds \$1.50 for 20 out of any 30 consecutive trading days. If the Notes have not been repaid within six or nine months after issuance, the Notes will begin to bear interest (at the SOFR rate plus 9% and at the SOFR rate plus 12%, respectively) and an additional 25% warrant coverage will be provided at each such date, with a per share exercise price equal to 120% of the trading price of the Common Stock at the time of issuance and a redemption right in favor of the Company when the trading price of the Common Stock is greater than 200% of the applicable exercise price for 20 out of any 30 consecutive trading days. Shares of Common Stock issuable upon exercise of the warrants will be limited to an aggregate of 19.9% of the Company’s outstanding Common Stock until such time as the transaction is approved by the Company’s stockholders.

Pursuant to a registration rights agreement among the Company and the Lenders, the Company intends to register the Common Stock underlying the warrants no later than February 1, 2024. The parties to the Purchase Agreement also entered into an intercreditor and subordination agreement with the holders of the Company’s senior secured convertible notes, which notes will now be secured pursuant to the Security Agreement and rank senior in priority to the Notes.

The description above is a summary and is qualified in its entirety by the complete text of the Purchase Agreement, the form of Note, the form of warrant, the Security Agreement, the registration rights agreement, and the intercreditor and subordination agreement, which will be filed with the Commission.

## NUBURU Announces \$5.5 Million Bridge Financing

*Bridge Loan From Existing Investors and a New Institutional Investor Secured by the Company's Patent Portfolio Preliminarily Valued at More Than \$100 Million*

**CENTENNIAL, Colo., Nov. 14, 2023 -- NUBURU, Inc. (“NUBURU” or the “Company”)** (NYSE American: BURU), a leading innovator in high-power and high-brightness industrial blue laser technology, today announced it has entered into a secured bridge loan agreement (the “Bridge Loan” or “Bridge Financing”) with existing investors and a new institutional investor. The Bridge Financing with a principal amount of \$5.5 million is intended to finance the Company until it secures long-term credit financing, which is anticipated in the near term.

**Brian Knaley, CEO of NUBURU, commented:** “I want to thank our existing and newly participating investors for their trust and commitment. We all share the enthusiasm for NUBURU’s groundbreaking technology and strong patent portfolio. The Bridge Financing is an important step on our way to a longer-term credit facility intended to support the commercialization of our blue lasers.”

The Bridge Loan consists of zero- interest promissory notes issued with a 10% original issue discount, which will mature when we close the anticipated credit facility (or twelve months after issuance at the latest) (the “Notes”). The Notes are secured by NUBURU’s patent portfolio, which was independently and preliminarily valued to be more than \$100 million. Following acceptance by the NYSE of the Company’s supplemental listing application, the Company will also issue to the holders of Notes warrants exercisable for common stock equal to 100% of the Note principal, which will be exercisable for \$0.25 per share, have a 5-year term, and may be repurchased by the Company when the trading price exceeds \$1.50 for 20 out of 30 trading days. If the Notes have not been repaid within six or nine months after issuance, the Notes will begin to bear interest (at the SOFR rate plus 9% and at the SOFR rate plus 12%, respectively) and additional 25% warrant coverage will be provided at each such date. Pursuant to a registration rights agreement among the Company and the holders of warrants, the Company intends to register the common stock underlying the warrants no later than February 1, 2024.

The parties to the Bridge Financing also entered into an intercreditor and subordination agreement with the holders of senior secured convertible notes, whose convertible notes will now be secured and rank senior in priority to the Notes.

Northland Capital Markets acted as sole placement agent on the institutional investor portion of the Bridge Financing.
